Design catalogue 2016

WHY SACKit?

SACKit is unique Danish design. We create functional lifestyle products made from high quality materials. A SACKit product is a product that you will continue to enjoy for years! We never compromise on function or quality in our designs.

GETit?

People often ask us "What's the link between speakers and beanbags?" We find the link obvious – we produce functional lifestyle products that fit the modern, active life. We are not limited to one product category; we identify customer needs and design products to meet them ...and obviously all our products have another feature in common: they have "it" (also as an ending to their name)

SIT DOWN, RELAX AND HAVE A COFFEE!

The vintage RETROit is the only beanbag on the market where you can sit down holding a cup of coffee in one hand and a book in the other – and still sit comfortably!

With RETROit we have rethought the beanbag and designed it with two supporting chambers of beads, so you can sit down just like in a recliner. Unlike a conventional beanbag you will never have to shape it with your hands. And you will always feel comfortable sitting in a RETROit.

Use the Cobana-series to create a cool lounge area inside or outside - you decide!

ENJOY STYLE AND COMFORT

RETROit Medley is our most luxurious version of the RETROit chair. The RETROit Medley chair is more than just a beanbag – it's filled with a mixture of foam and EPS pearls to give you a much softer loungechair.

The chair is made from the exclusive Medley fabric, which is produced by the Danish company Gabriel. The Medley fabric is made from 100% recyclable polyester, and it's extremely durable – just feel free to relax in the chair all day long, it will keep it's good looks.
